

DS12-18 Perimeter Seal - Kerf Mounted

Description

A kerf mounted flexible quadrant bulb gasket seal.

Features

This gasket seal is ideal for sealing against a door corner. The black TPE-V seal gasket is strong and flexible due to its elastomeric properties.

Fitting Location

This seal can be kerf mounted around the perimeter into a groove size of 4-5mm width and 8mm depth

Gap Size

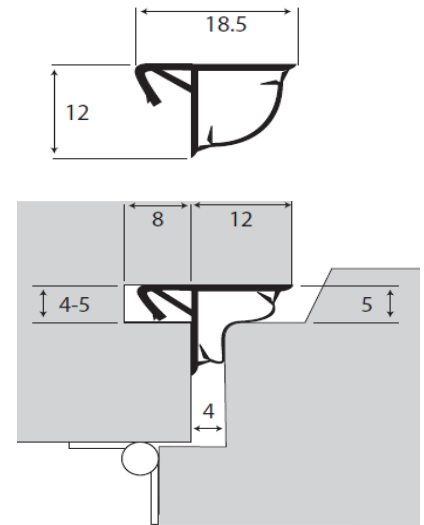

Maximum 4-5mm gap coverage if fitted as standard.

Material and Finish

Black TPE-V gasket.

Available As

Per metre increments
50M Carton
